## One of Our Cases 《Indonesian Man》

**2017** Arrived to Japan as a technical intern trainee. Worked in mechanics, but changed to working in animal husbandry. While working in animal husbandry, he did not receive salary for 2 months. As a result, was forced to return to Indonesia.

**2022** He returned to Japan with a Specific Skilled Worker Visa and worked in animal husbandry in Hokkaido. Lived in extremely cold conditions in a shed with no toilet or heat. Employers ignored the unreasonable living conditions and other difficulties. Employers told him to return to Indonesia, but escaped the job and stayed in Japan instead.

**2023** Sought refuge at PHD Association's Minnanoie. As a Registered Support Organization, PHD:  
-Introduced him to a job as a nursing caregiver.  
-Taught him Japanese.  
-Helped gain status of residency and completing administrative paperwork.

**now** Received another Specific Skilled Worker Visa in nursing and now works in a skilled nursing facility for elders.

I had many difficulties. I almost felt like I wanted to die. While I was escaping, I met the people at PHD, and they helped me with many of my challenges. They helped me apply for a specified skilled worker visa and introduced me to job opportunities. The people at PHD are like family to me. I will never forget them.
